Design package - Bronze (virtual)

The Package

If you need help choosing the key piece of furniture or wallpaper, need some help giving your space a refresh, or perhaps something just doesn't feel quite right then this service is perfect for you! This provides you with a 45 minute call to discuss absolutely anything you want and we will provide our knowledge and expertise and give you as much as advice as you need!

Our Bronze Package service provides that extra helping hand to get the finishing touches just right. We know how important details are to bringing a room to life. It's often the trickiest part of the entire renovation process!

Our Bronze Package service is also completely remote. This enables us to provide a service tailored to you at a fraction of the cost of a traditional interior design specification – no matter where in the world you are!

How this service works

1. Get in touch with us via the contact form on our website, through e-mail, or even via our social media!

2. Fill in our client questionnaire. This will help us to understand what you are wanting to talk about, where you could use some help or advice and gives us a feel as to what your project currently looks like and where you want it to finish! It also gives us a chance to prep anything we need to, whether that's potential websites/suppliers to suggest to you or pieces we have found that may benefit your project!

3. Once we have received your completed questionnaire, we will organise a video call with you.

4. During the call, we will cover absolutely anything you want to run through. This could be colour schemes, where is best to source products, storage solutions or even how to go about organising trades and ensuring you're getting the best deals! The call is open for any discussion and isn't restricted to just one topic – you get to decide how to spend the time! Any questions you have following the call can be answered via e-mail so there's always support should you need it!

Timeline and pricing

On average, this service can be undertaken as soon as the questionnaire is filled out (normally 24-48 hours following initial enquiry!).

Price: £79 for a 45-minute video call

3. Once we have received your completed questionnaire, we will organise an in-person or video call meeting (depending on where you are in the world!). During the meeting we will run through your project with you, highlighting all the key pieces of information we need to help provide the best service! It will also enable us to take a look at your space in real time and to get an in depth understanding of what you really want to achieve!

4. We will then go away and create our design proposal. This will include:

- a. Mood boards
- b. 2D floor plans and layouts
- c. Colour schemes
- d. Other elements that you may need help with

5. Following this, we will then organise another meeting to discuss the design where we offer one round of revisions at no extra cost.

6. A final design proposal will then be sent to you, including final floorplans, mood boards and colour choices as agreed and a 'shopping list' to things we believe will really elevate your space!
